Tools

Saw to cut boards to length

Drill

Sander

Nailer

Drill bit for knobs

Supplies

Nails (for compressor nailer)

Chalkboard Paint

3 Cabinet Knobs

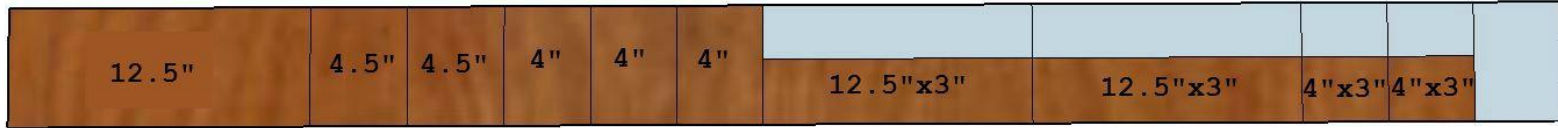

Sandpaper

Chalk

Stain and Wood Glue

Cut List

Cut List 1"x6"x72" Board

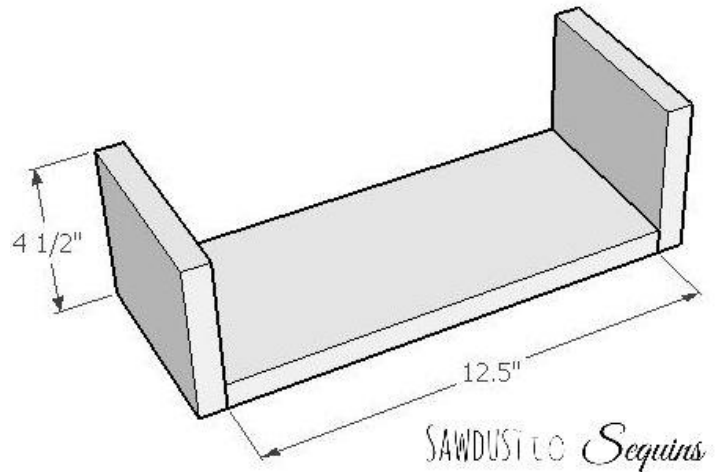

SAWDUST to *Sequins*

Step 1

Cut all boards to length according to cut list.

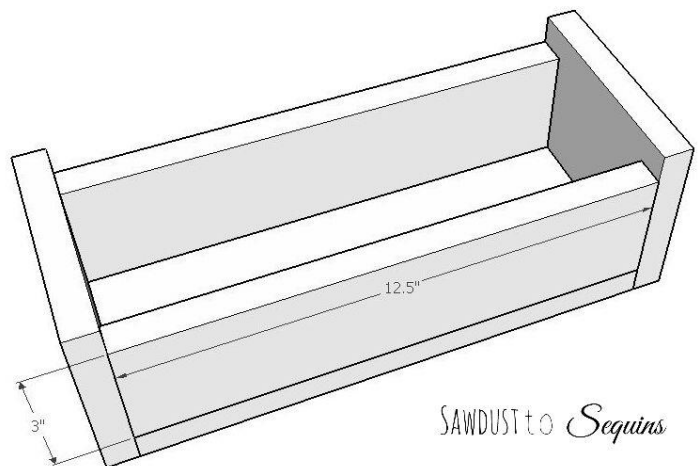

Step 2

Attach the two sides (4.5"x5.5") to the bottom board (12.5"x5.5") using a nail gun and wood glue. If you don't have a nail gun, small nails and a hammer work just as well, just sink your nails for finishing purposes.

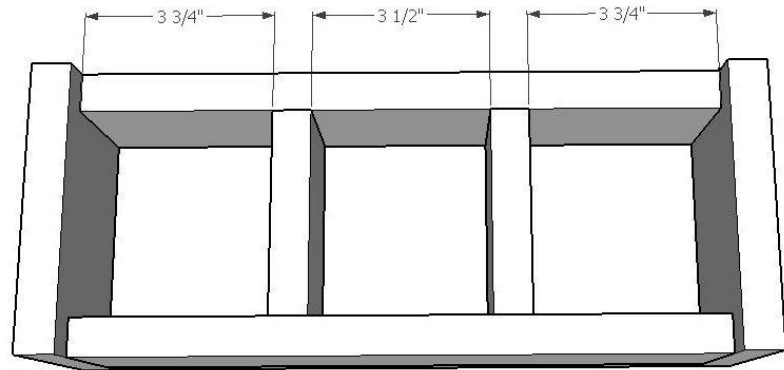

Step 3

Attach front and back pieces (3"x12.5") to form your box.

Step 4

Insert divider pieces (4"x3") into the box placed at 3.75" from each end of the box. Attach with nails and wood glue.

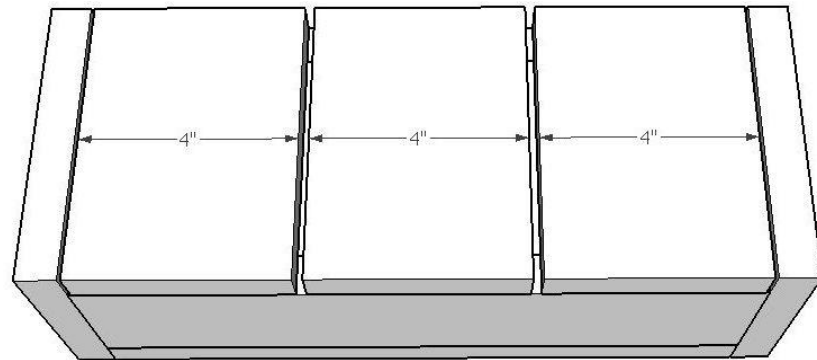

SAWDUST to *Sequins*

Step 5

Drill a hole in the top of your (3) lid pieces for the knobs to attach to. Sand the entire box and stain all boards except the front 3x12.5" board. Paint this with chalk paint and allow to dry.

Step 6

Once the box is dry, attach the knobs to the (3) lids boards. Fill up with your favorite beverages and enjoy!
